Re: Annual Report of International Export/Import Data for Report Year 2009

Dear Mr. Como:

Rule 308 of the United States Department of Energy's ("DOE") Rules of Practice and Procedure, 10 C.F.R. § 205.308 (2009), requires persons receiving authorization to transmit electric energy from the United States to submit to DOE a report covering electrical export and import data along with associated costs and revenues for the preceding calendar year.¹ This information is to be provided on Form OE-781R.

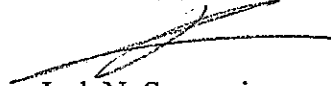

¹ The New England Power Pool is the official holder of the related export authorizations, pursuant to DOE Orders EA-186, EA-186A, and other orders. The Federal Energy Regulatory Commission ("FERC") approved ISO New England Inc. ("ISO") as the regional transmission organization for the six New England states as of February 1, 2005, pursuant to FERC order *ISO New England Inc.*, 106 FERC ¶ 61,280 (2004) and subsequent orders. The ISO applied to DOE for an export authorization on October 4, 2004. *See* Application of ISO New England Inc. For Authorization to Transmit Electric Energy to Canada (EA-298) ("Application"). The ISO's Application is currently pending. However, the ISO has received a temporary emergency authorization in Docket No. EA-298-B pertaining to two transmission lines. The ISO is making this filing as the FERC approved regional transmission organization for New England, the custodian of the required data, and the recipient of the temporary emergency authorization in Docket No. EA-298-B.

Mr. Anthony Como
February 12, 2010
Page 2

Pursuant to Rule 308, enclosed please find four (4) original executed Forms OE 781-R, which have been completed to report the electricity export/import data for the calendar year 2009 pertaining to each of the four (4) Presidential Permit holders, Maine Electric Power Company (PP-43), Vermont Electric Transmission Company (PP-76 as amended), Joint Owners of the Highgate Project (PP-82), and Bangor Hydro-Electric Company (PP-89, PP-89-1, and PP-89-2).

Should you have any questions, please do not hesitate to contact me at (202) 661-7640.

Very truly yours,

REPORT OF INTERNATIONAL ELECTRIC IMPORT/EXPORT DATA

Use of the reporting format is desirable. However data requested must be submitted by Permit holder. DOE does not consider the data to be confidential and will not treat it as such. According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number of this information collection is 1901-0296. The time required to complete the requested data is estimated to average 5 hours per response, including the time required to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate or suggestions for improving this form, please write to: U.S. Department of Energy, Energy Information Administration, EI-70, 1000 Independence Ave., S.W., Washington, DC 20585.

1.0 IDENTIFICATION INFORMATION

- (a) Name of Permit/Authorization Holder Bangor Hydro-Electric Company acting through ISO New England Inc./
ISO New England Inc.
- (b) Mailing Address One Sullivan Rd.,
