## Attachment A - ISO Transmission Facility Outage Request Form

Due to the size of the form and to promote easy use of the 'ISO Transmission Facility Outage Request Form' the normal Header does not appear on the next 2 pages.

*This document is controlled when viewed on the ISO New England Internet web site. When downloaded and printed, this document becomes **UNCONTROLLED**, and users should check the Internet web site to ensure that they have the latest version.*

## Attachment A - ISO Transmission Facility Outage Request Form

### Requestor Details (To Be Completed By Local Control Center)

Application	Status	Requestor	Date Updated	Date Created	Outage Category	Outage Type
External	Restricted	Updated by	Acceptation Deadline			

Equipment	Single		Group		Times											
Company					Planned Start					Planned End						
Station					Date			Time			Date			Time		
Equipment Type					Actual Start					Actual End						
Name					Date			Time			Date			Time		
Other Names					Overrun											
Tie Line					Other											
Alert NPCC					Operator to Participant notes											
NPIR																
Primary Path																
Alternate Path																
Voltage Level																
Outage State			Normal State													
Name																
Recall Time																
Recall Load																
Recall Load Reason																
Outage Duration																
Requestor Notes															Review	
Request reason					Reviewer name											
Additional reason					Review date											
					Review reason											
					Reviewer notes											
Requestor notes
