The Honorable Kimberly D. Bose, Secretary
Federal Energy Regulatory Commission
888 First Street, N.E.

Re: *ISO New England Inc., et al.*
Docket No. ER20-2054-____

Dear Ms. Bose:

Pursuant to the Federal Energy Regulatory Commission's ("Commission") order issued in the above-referenced proceeding on December 28, 2020 ("Settlement Order"),¹ the undersigned New England Transmission Owners ("NETOs") that are eRegistered Companies submit through the ISO New England Inc. ("ISO-NE") Transmission, Markets and Services Tariff eTariff database this compliance filing establishing the effective dates of the tariff records in the ISO-NE Open Access Transmission Tariff ("ISO-NE OATT") approved by the Commission in the Settlement Order.²

The Settlement Order approved a Joint Offer of Settlement ("Settlement") submitted on June 15, 2020, that settled all issues set for hearing in Docket No. EL16-19. The effective dates of the tariff records to implement the Settlement were not known with certainty at that time because such effective dates were linked to the timing of a Commission order on the Settlement. As a result, all tariff records associated with the Settlement were submitted with the "to be determined" effective date of 12/31/9998. In paragraph 7 of the Settlement Order, the Commission directed the NETOs to make a compliance filing with revised tariff records in eTariff format, within 30 days, to reflect the Commission's action in the Settlement Order.

Consistent with the NETOs' commitment in the transmittal letter accompanying the Settlement and the Settlement's provisions regarding the effective dates of the tariff records, and pursuant to the Commission's directive in the Settlement Order, the NETOs are resubmitting in this compliance filing the eTariff records submitted with the Settlement. The resubmitted eTariff records are identical to the previously filed eTariff records except that they reflect effective dates established in accordance with terms of the Settlement, now that the Commission has approved the Settlement

¹ *ISO New England Inc.*, 173 FERC ¶ 61,270 (2020).

² ISO-NE is submitting this compliance filing through eTariff as a courtesy to the NETOs because only ISO-NE holds the administrative rights to submit filings through eTariff pertaining to the ISO-NE Transmission, Markets and Services Tariff. The ISO-NE OATT is Section II of the ISO-NE Transmission, Markets and Services Tariff.

and those effective dates are known with certainty. The ISO-NE OATT tariff records submitted in this compliance filing, and their respective effective dates, are:

- Attachment F of the ISO-NE OATT (“Attachment F”) and the new Attachment F “children” tariff records,³ with the exception of one tariff record (“Att - F, Appendix C”), are to be effective January 1, 2022. The revised version of the Attachment F tariff record is designated as Version 23.0.0, while its new “children” tariff records are Version 1.0.0s. Two versions of child record “Att - F, Appendix C” have effective dates slightly different than all other tariff records that comprise the entirety of Attachment F:
 - “Att - F, Appendix C” Version 1.0.0 contains the Interim Formula Rate Protocols, which are to be effective June 15, 2021.⁴ (The Interim Formula Rate Protocols will terminate and be replaced by the Formula Rate Protocols on the date noted in the next sub-bullet.)
 - “Att - F, Appendix C” Version 2.0.0 contains the Formula Rate Protocols that will replace the Interim Formula Rate Protocols effective June 15, 2023.⁵
- All the other tariff records – Section II.25, Schedule 8, Schedule 9 and each of the Schedule 21s of the ISO-NE OATT – are to be effective January 1, 2022.⁶

The NETOs request that the Commission issue an order accepting the effective dates of the respective eTariff records resubmitted in this compliance filing, in accordance with the terms of the Settlement that was approved in the Settlement Order.

Thank you for your assistance in this matter. Please direct any questions to the undersigned counsel for Eversource.

Yours truly,
