

Generation Interconnection & Elective Transmission Upgrade Requests:

The requirements for submitting a Generation Interconnection Request, including the requisite forms, are provided in Schedule 22 – Standardized Large Generator Interconnection Procedures – and Schedule 23 – Standardized Small Generator Interconnection Procedures – of the ISO New England Inc. Open Access Transmission Tariff.

The requirements for submitting an Elective Transmission Upgrade Interconnection Request, including the requisite forms, are provided in Schedule 25 – Standardized Elective Transmission Upgrade Interconnection Procedures – of the ISO New England Inc. Open Access Transmission Tariff.

All Generation Interconnection Request Forms should be submitted through the Interconnection Request Tracking Tool (IRTT). You can access the Interconnection Request Tracking Tool (IRTT) by clicking [here](#) or by typing the following URL in your internet browser: <https://portal.iso-ne.com>

If you have any questions about this or you have questions about the Interconnection Request Tracking Tool (IRTT), you can contact us by sending an email to [IRTT Customer Support](#).
